

CI-4 Diesel Engine Oil

【Performance features】

- Remarkable detergent performance, which can effectively control the generation of deposits on valves and piston as well as polishing of cylinder wall;
- Outstanding oxidation stability reduces the generation of oil sludge and prolong the service life of engine;
- Super soot dispersant performance prevents wear of the valves and heavy-load parts;
- Excellent fuel economy, which can cut the fuel consumption to the minimum;
- Unique low-Zinc and low-Phosphor formula for the benefit of environmental protection.

【Application】

The product can be applied in the latest heavy-duty, high-speed and four-stroke naturally aspirated engines or turbo charger engines matched with EGR. It is also appropriate for the super-heavy-load container trucks and the off-highway engines and power generation assemblies operating under rigorous working conditions. The product can replace CH-4, CG-4, CF—4 oils.

【Products】

5W/30, 10W/30, 10W/40 and 15W/40.

【Recommended Drain interval】

30,000 km.
